

Hands-On HTML Workshop

❖ Event Overview

Organized By: **Developer's Club**

Third Year CSE Dept. (BATU)

➤ Workshop Objectives

The One-Day HTML Workshop aims to provide participants with a solid foundation in web development by introducing them to the fundamentals of HTML. The workshop is designed to achieve the following objectives:

Introduction to Web Development: Familiarise participants with the basics of web development, the roles of HTML, and their significance in creating attractive and functional websites.

- **Hands-on Learning:** Provide a hands-on learning experience, allowing participants to practice coding HTML, create a simple webpage, and apply styling techniques.
- **Interactive Engagement:** Engage participants through interactive activities, quizzes, and coding challenges to reinforce learning and enhance retention.
- **Inspiration:** Inspire participants to explore further into the world of web development, encouraging them to continue their learning journey.
- **Academic Benefit:** This workshop is strategically timed to benefit second-year and beyond students by equipping them with skills essential for seminars and mini projects in their academic journey.

➤ Workshop Agenda

Session 1: Introduction to Web Development and HTML Basics

- **Duration:** 3 hrs. (approx.)

- **Topics Covered:**

- Understanding the basics of web development.
- Introduction to HTML and its role in structuring content.
- Hands-on exercise: Creating an HTML document with essential tags.

9.HTML Lists

10.HTML Layouts

11.HTML SEO

12.HTML Tools

13.HTML Frameworks

**ADVANTAGES & DISADVANTAGES OF
HTML**

3. FUTUERE OF HTML

4. CONCLUSION

- **Learning Outcomes**

By the end of the workshop, participants will have achieved the following learning outcomes:

- Understand the role of HTML in web development.
- Code and structure a basic webpage using HTML.
- Gain confidence in independently exploring further web development resources.
- Engage in interactive activities and coding challenges to reinforce learning.

- **Workshop Materials**

All required materials, including presentation slides, handouts, coding exercises, and reference resources, will be provided by the organizers.

- **Conclusion**

The One-Day HTML Workshop is designed to empower participants with foundational web development skills. By providing hands-on practice, interactive engagement, and expert guidance, we aim to ignite a passion for web development and inspire participants to continue exploring this dynamic field. Remember to always test your code and seek feedback from users to improve the user experience.
